

The Work Number[®] is an automated service that accelerates credit decisions by providing verifiers—mortgage lenders, credit card companies, auto dealers and more—with proof of your employment or income, instantly and securely.

This document provides step-by-step instructions on how you can access The Work Number to perform two functions available to employees:

- View your free annual Employee Data Report, a record of your information contained on The Work Number database and a list of the verifiers who have accessed that information

 or
- b. Generate a Salary Key, a single-use, six-digit code that you can provide to a verifier as consent to access your income information. Note: In most cases, your consent is provided at the point of application for a service—when you sign a loan application or similar agreement—and a Salary Key is not required, but if you are asked to provide one, the below instructions will show you how.

Creating and managing Salary Keys

Note: In most cases, your consent to have a verifier access your income information has already been established at the time of application and you will not need to generate a Salary Key. However, if instructed to do so, here's how:

- 1. Click "Prove Income to Verifiers"
- 2. Click "Create Salary Key"
- Provide the newly created salary key to the verifier, along with your employer name or code and your social security number.

Note: At any point, select the "Salary Key Activity" link to view the status (used, unused, expired of any keys you have created.
