Costs are subject to change. Actual per pay period premiums may differ slightly due to rounding.

Premiums on coverage you first elect will be based on your age as of the first effective date of coverage and will not increase. Thereafter, premium rates may change if coverage is later increased or decreased. When increases occur, premiums on the increased amount only will be based on Your age of the effective date of such increase. Premiums for existing coverage amounts will continue to be based on your age as of the first effective date of that coverage. In addition, should rates increase for all individuals, your established age for premium purposes will remain unchanged while the rate for that age increases. If You continue coverage upon termination of employment with the employer, or when You are no longer eligible for coverage as an active employee premium rates will remain in effect at the age you were as of the effective dates of coverage with Us when active service or eligibility ends.
