

High-Cost Drug List for All Prescription Drug Plans

Amedisys Employees Welfare Benefit Plan

Effective Date: January 1, 2025

The following drugs are considered high-cost and subject to your pharmacy deductible and a 30% coinsurance payment under the Amedisys Employees Welfare Benefit Plan (the “Plan”). You will pay higher costs to fill these prescriptions compared to other medication alternatives.

The higher 30% coinsurance after deductible applies to all dosages, quantities, formats (e.g. injections, solutions, tablets, pills, etc.), and pack-sizes for the following drugs on all prescription drug plan options offered under the Plan, administered by CVS Caremark.

- Adlyxin
- Aimovig
- Ajovy
- Bydureon
- Byetta
- Emgality
- Liraglutide
- Mounjaro
- Nurtec
- Ozempic
- Paxlovid
- Qulipta
- Rybelsus
- Trulicity
- Ubrelvy
- Victoza
- Vyepti
- Zavzpret
- All specialty generic and brand-name drugs listed on the CVS Advanced Control Specialty Formulary Drug List

If you or a covered family member are taking one or more of these high-cost drugs, it is important for you to ask your doctor about other, lower-cost options or generic medications that may provide a similar therapeutic benefit. You may also want to consider other health insurance coverage available to you or other family members that may cover these medications at a lower cost to you.

Are these the only high-cost drugs subject to the higher coinsurance?

Amedisys will review this list of high-cost drugs on a quarterly basis. However, Amedisys reserves the right to update this list of high-cost drugs subject to the higher coinsurance at any time.

Who can I talk to for help with my treatment or therapy options?

You should talk with your doctor about other options that may be available to you at a lower cost. You also have free access to **Included Health** experts who can provide a second opinion related to your diagnosis and available treatment options at no cost to you. Register your account online at www.includedhealth.com/amedisys or call **Included Health** 24/7 at **855-429-7330**.
