

Introducing Care Finder™ from Quantum Health

Find high-quality, cost-effective, in-network care – all with a single search tool

New to town and need a doctor? Out of town and need a doctor? Looking for the best place to have joint surgery? For help with all your healthcare and benefits needs, Quantum Health is here. We're just a click, scroll, chat or call away.

Found on your Quantum Health member portal, Care Finder helps you find and compare healthcare providers and facilities so you can make informed choices about the care you'll receive. Checking cost and quality rankings in advance can save you hundreds or even thousands of dollars and ensure you receive the best possible care.

Find a **PROVIDER**

Search by provider name, provider specialty, facility name, facility type or procedure, and your ZIP code.

All search results are in-network*, meaning your insurance provider has negotiated discounted rates for members of your benefits plan.

Compare **COSTS**

Even in-network costs for providers and services can vary significantly. Estimated costs for providers, facilities and procedures are based on the amount health plans have typically paid on claims in your area, from the lowest cost to the highest. The "Fair Price" is the amount you can reasonably expect a medical service to cost.*

Compare **QUALITY**

These rankings reflect provider and facility performance across multiple criteria, including patient outcomes. Provider Quality Rankings also reflect compliance with standards of care and are updated annually.

\$	At or Below Fair Price	⬆️	Highest Quality
\$\$	Slightly Above Fair Price	⊖	Average Quality
\$\$\$	Highest Price	⬇️	Lowest Quality
—	Not Available	—	Not Available

*You should always verify network status with a provider prior to scheduling your visit or service, as they sometimes switch networks. While you're at it, you can ask them for an estimate of your anticipated out-of-pocket costs for the procedure.

Quickly find quality, in-network care at a reasonable price.

When it comes to choosing a provider and a facility for common services – imaging, diagnostic procedures, outpatient surgery and more – you have options. With Care Finder™, seeking them out is an easy, informative experience.

Go to Care Finder

1. Log on to your member portal or app.
2. Go to the **My Plan** section.
3. Select **Care Finder** in the menu.
4. Begin your search.

Search for providers and facilities

- Search by provider name, provider specialty, facility name, facility type or procedure, and your ZIP code.
- Learn which providers are accepting new patients.
- Find out how far away they are.
- Refine results by languages spoken or gender.
- All results are in-network.*

Compare cost and quality rankings

- Highest-quality, lowest-cost providers and facilities are shown first.
- See a Fair Price estimate for total procedure costs.
- Explore three levels of detail for each provider:
 1. Name, location, quality ranking and whether they're accepting new patients.
 2. Expanded view, including additional details on the provider or facility and procedures that can be performed.
 3. The Fair Price for a procedure presented along a market price spectrum.

The screenshot shows the 'Refine Results' interface with filters for Distance, Quality Ranking, Accepting New Patients, Gender, and Languages Spoken. Two providers are listed: Bryce M. Fincham, DO (Sports Medicine, Orthopedic Surgery) and Stephen P. Wiseman, DO (Orthopedic Surgery). Both are marked as 'In-Network' and 'Accepting New Patients'.

The screenshot shows the provider detail page for Stephen P. Wiseman, DO, an Orthopedic Surgeon. It includes contact information (3705 Olentangy River Rd, Columbus, OH 43214; Phone: 614-788-5000), specialty, gender (Male), languages spoken (English), and quality ranking (Highest Quality). It also indicates he is 'In-Network', 'Accepting New Patients', and provides an NPI number (1851683429).

The screenshot shows the procedure detail page for 'Total Knee Replacement'. It features a 'Fair Price' of \$34,952 and a price spectrum ranging from \$18,144 to \$61,879+. Below the spectrum are expandable sections for 'Fair Price Breakdown', 'Fair Price Information', and 'Fair Price Fee Details'. A table lists 'FACILITIES THAT PERFORM THIS PROCEDURE', with Berger Hospital Hospital shown as 31 miles away, in-network, and having the highest quality ranking.

*You should always verify network status with a provider prior to scheduling your visit or service, as they sometimes switch networks. While you're at it, you can ask them for an estimate of your anticipated out-of-pocket costs for the procedure.
