## What is SaveOnSP?

- SaveOnSP is a program designed to help you save money on specialty prescription medications.
- As you may be aware, specialty medications are often used to treat complex or chronic conditions and can be very expensive.
- SaveOnSP works by coordinating with drug manufacturers' copay assistance programs to reduce the out-of-pocket costs for patients.
- This program will help you access financial assistance for select specialty drugs covered through SaveOnSP that lowers the amount you need to pay for your medications to **\$0**.

## How do I sign up?

- If you have received a letter or were told at the pharmacy that your prescription (or your dependent's prescription) is eligible for SaveOnSP, **call 800.683.1074 to sign up**
- It is important to sign up to avoid delays in accessing your specialty prescription

## Additional Financial Information

- If you do not enroll with SaveOnSP, a 30% coinsurance will apply to your specialty prescription
- Because your copay will be \$0, manufacturer copay assistance dollars will not accumulate toward your deductible or out of pocket max
